MEMORANDUM FOR: Intelligence Producers Council

SUBJECT : Central Intelligence Agency Fourth Quarter
FY 1984 External Analysis Research Program

1. The attached list is of the CIA Directorate of Intelligence (DI) external analysis research projects approved for the fourth quarter of FY 1984. Those listed under our Office of Scientific and Weapons Research are a mix of both new and continuing projects. However, those projects listed for other DI offices are in most cases new research efforts.

2. In order to more accurately reflect the extent of our regional research program, we have included projects which do not reach the minimum level of effort -- one-half man-year -- which has been established. We are also providing a point of contact and telephone extension for each project. (Our Office of Soviet Analysis has a telephone prefix of []-XXXX vice the more recognized []-XXXX.)
